

JOSHROX

PRESS KIT

DJ/PRODUCER

A super talented Dj and Producer, JoshRox's evolution was forged out of old school Dj and music culture from a very early age. Spinning vinyl and slugging records from gig-2-gig, smashing sets became second nature and a way of life.

However, not satisfied with playing other people's tracks, he felt the overwhelming urge to create original music that was becoming the next sound.

Fresh new laid Underground House & Dirty Bass tracks mixed with a Garage & Tech House flavour, boomed from studio-2-studio, club-2-club. JoshRox's music belted dance floors everywhere with industry heads turning. But he has not stopped there. Each track he releases continues to attract attention world wide.

Amongst his numerous EP's signed by industry recognised labels including Build It Records (USA), Top Billins - My Techno Weighs A Ton (Germany), Nu Wave Records (UK), 3000 Bass & 3000 Deep (UK), Josh has also had various hits smash the Hypeddit World Wide House Top 100. His latest re-fix of Soul Searchers classic hit "Can't Get Enough" reached #1 in a matter of days & stayed there for over 2 weeks.

Josh also hosts he's own DJ show on Australia's biggest dance music radio station 105.7 Radio Metro "Basses Loaded" every Sunday 1am - 2am.

With a dynamic year ahead and loads more music to come, it's best to save a spot for JoshRox in your calendars as he's definitely one to look out for.
